

Every Responder. Every Moment. Every Mission.

Intrepid Response is a unified mission-critical collaboration and intelligence solution designed for public safety field operations.

The platform integrates messaging data, location services, emergency notifications and custom agency-owned digital forms into one interoperable system, keeping responders and agencies connected, coordinated, and informed when every second counts.

Locate

Geo-spatial solution with feature rich mapping. Monitor location of all personnel, tagged assets, and markers in near real-time.

Features and Benefits

Real-time GPS location of all team members. ■ Interactive mapping with annotated markers & shapes ■ Monitor personnel, assets, threats, and incidents in real-time ■ UAV, GPS tracker, and WiFi beacon integration ■ Auto-navigate to personnel & incident markers ■ Easy visualization of responder locations

Activate

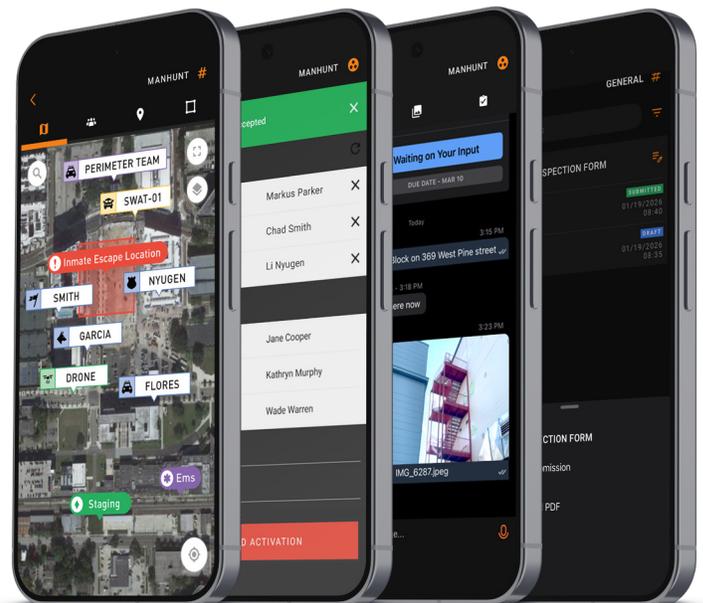

A simple-to-use web and mobile emergency notification and response team mobilization tool

Features and Benefits

Persistent alerts bypass Do Not Disturb until acknowledged ■ Back-up SMS and email notifications ■ Real-time acknowledgments for resource accountability ■ Precise communication of assignments and mission information

“Response has significantly increased capacity with understanding our positioning to the challenges we are facing. It improved our operational safety and contributed to our mission’s success.”

– St Paul Assistant Chief of Police

CONNECT

INFORM

Connect

A multi-layered collaborative workspace that provides highly secure team communications and sharing of digital content on demand.

Features and Benefits

Highly secure multi-media sharing of text, videos, photos, and documents. ■ Instant messaging with controlled channel management ■ Collaborative documents and white boards ■ Streamlined Task Management.

Inform

Structured, Agency-Owned Digital Form for Mission-Critical Operations

Features and Benefits

Create structured, agency-owned digital forms with no-code tools ■ Deploy templates instantly to teams and mutual aid channels ■ Capture structured information in real time ■ Submit documentation directly within active missions ■ Preserve operational context for accountability and continuity

Mutual Aid & Multi-Agency Collaboration

Interoperability enhances mission success with responder safety

Quickly establish unified command and communications over a shared common operating picture ■ Decentralize decision-making while reducing information overload ■ Safely and efficiently manage resources and information flows ■ Easily visualize responder locations and geospatial information with interactive mapping ■ Precisely communicate information over secure chat channels

Push-to-Talk Integration with Leading PTT Solutions

Evoke calls directly from personnel markers to individuals or ad-hoc group ■ Customizable PTT button location
