Intrepid **RESPONSE**

ACTIVE DIRECTORY – FIRST TIME LOGIN ON MOBILE

INTREPID RESPONSE APP

1. Open the Intrepid Response App. From the Intrepid Response Login screen, Select 'SIGN IN WITH AZURE AD.'

2. If this is the first time the user has logged into Intrepid Response using LAPD Active Directory, the user will select 'Click Here' near 'First Time sign in with your company account?' to use External ID.

3. Click within the External ID name field and type in your organization External ID. The External ID is given to users by LAPD. See your company administrator if you have not received your External ID.

MICROSOFT ACCOUNT

4. Once your External ID is added, select 'Connect Account' to continue.

5. Once a LAPD user is connected with the External ID, the user will be taken to their Microsoft Login page. Here the user will pick their LAPD account or add it through the '+ Use Another Account' option.

6. If the user has not logged in or been authenticated with the LAPD Active Directory using the LAPD External ID before, they will receive a request to change their Microsoft Account Password.

7. Following the Microsoft Account Password change, the LAPD user will be requested to Accept the Permissions of the application, as it is not published by Microsoft directly. Once the user clicks on 'Accept', the user is taken back to the Intrepid Application.
